## ABOUT

AGT Laminate Flooring, which achieves harmony with nature, brings you comfortable aesthetics with its non-staining surfaces, standard production at E0 value, anti-static and water resistant features.

AGT derives the raw material it uses in its production from sustainable managed and %100 recyclable trees and tree forms. AGT contributes to sustainable production by converting wood waste into electrical energy in its own Biomass Power Plant.

AGT Flooring Series are produced from high density tree fibers and thus reach a very strong form. Thanks to that technology, it offers high strength and scratch resistance, and has been used for years.

### Greenguard certificate:

AGT Flooring Series has the Greenguard certificate, which contributes to the creation of healthier interiors. The Greenguard certificate is a certificate that shows that the chemical substances in the products used in indoor activities are within the limit values determined in terms of the efficiency of the indoor air.
