

ASMAR WOOD PANELS
YILDIZ ENTEGRE

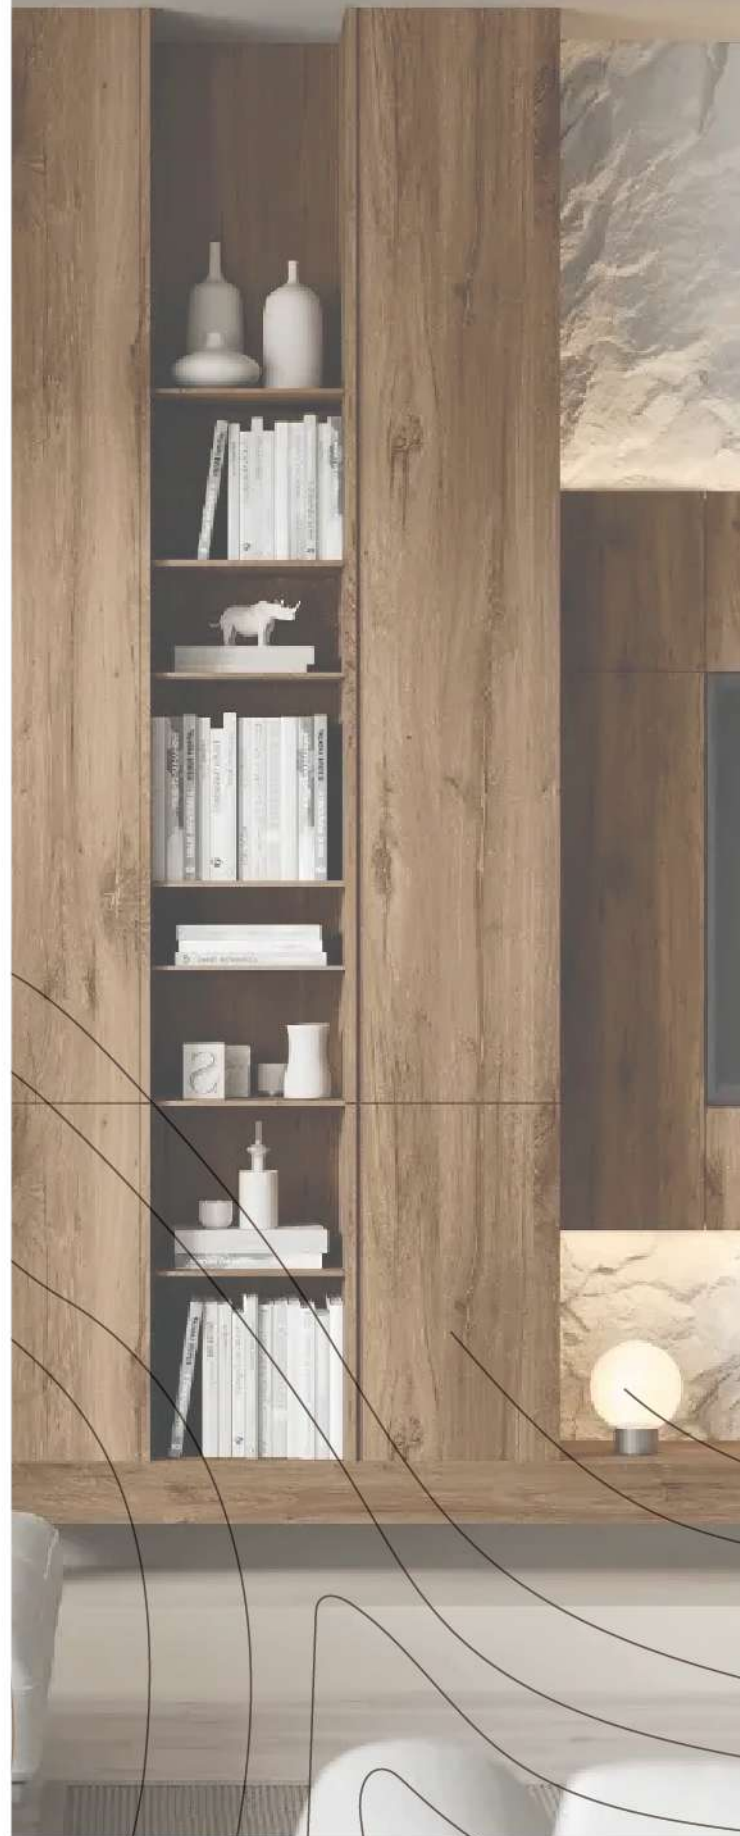

ABOUT

Melamine faced particleboard resembles chipboard but boasts a decorative surface. This thin, melamine-resin film offers a variety of textures (realistic wood grains, colors) and even imitates granite.

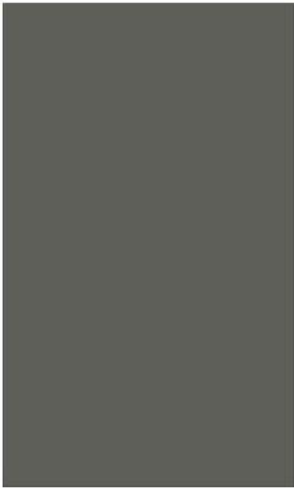

While somewhat moisture-sensitive, a water-resistant "Hydrofuge" version exists. It's a popular choice for cabinets, offices, wall panels, and furniture due to its versatility.

Properties

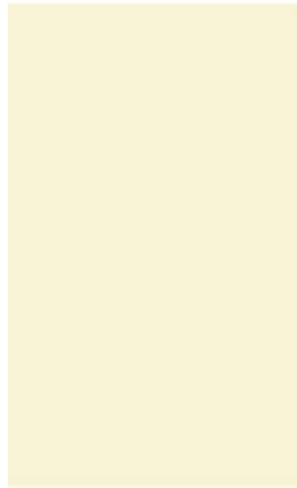

- Durable
- Budget-friendly alternative
- Water resistance
- Variety of colors
- Easy to clean
- Scratch resistant
- Wear resistant
- Lightweight
- Easy to work with
